WORK EXPERIENCE

BLUEBOX SECURITY INC.

2015 - Current

Principal UX Designer

Jan 2013 - Dec 2014

Lead UX UI Designer

Lead and designed the product, that directly contributed towards a successful series B funding (\$18M), to Gold RC

Lead design team which included: remote visual designer, remote UX consultants, in-house and 2 remote web developer, in-house Android developer, remote iOS developer, and copy writer.

Lead and facilitated in group brainstorming sessions to encourage discovery of new ideas and solutions.

Designed the enterprise administrator dashboard (web), consumer facing iOS and Android Apps. Ensured Designs adhered to each OS' design guideline.

Expertise of complete design phases: User research, concept (user stories and use cases), wireframes, interactions, prototypes, high fidelity mockups, redlining, asset production, and development, A/B testing, big focus on improvements through iterations.

Design patent filed for a mobile privacy dashboard

Administrator dashboard included complicated configurations that included: groups, inheritance, many-to-many and one-to-many complex relationships, all had to work intuitively.

OPEN SOLUTIONS GROUP, INC.

Sept. 2011 - Dec 2013

Lead UX UI Designer/Developer

Designed a human resource web app for tracking military deployment personnel. This application was used exclusively by the US Defense Intelligence Agency and the US Department of Defense.

User Experience Research of their existing systems and military personnel as users. Goals were to bring the mobile device experience of a simplistic interface with easy to absorb visuals for a complex data set.

Designed Use Cases through the use of wireframes and storyboards

Designed mock ups of the application using Illustrator and Photoshop, referencing the planned wireframes. Hand coded prototypes using HTML, CSS, CSS3, jQuery, and Javascript.
